

Kevin Green

Parent Governor

Hello Parents. I have been a Parent Governor at Ravensmead Primary for four years. In this time I have tried, on your behalf, to ensure that high standards in teaching and learning have been driven forward. I have been an integral part in the recruitment process of many of our new staff at school and have been able to offer support and indeed challenge to the school when necessary. I am a member of the Personnel committee in school and also the school governor link co-ordinator for Geography and History. My own expertise as a head of Department at a Secondary school has allowed me to support the school in a variety of ways but more importantly my role as a parent has meant I have been able to speak up in meetings to ensure every one of our children gets the best education possible. Please don't hesitate to contact me through the school office if you have any concerns I can bring to the schools attention on your behalf
