

## Seven Times Table - 'Cups'

### VERSE:

We started counting, now we're almost done  
Three, four, and five we did with ease  
And now you know what's next  
So you just try your best  
And count by 7's until we get to 70

### CHORUS:

Let's have some fun (HAVE SOME FUN)  
And sing along (SING ALONG)  
To 7, 14, 21  
28, and 35, to 42, and 49, to 56 and 63 then 70  
Let's have some fun (HAVE SOME FUN)  
And sing along (SING ALONG)  
To 7, 14, 21  
28, and 35, to 42, and 49, to 56 and 63 then 70

### VERSE:

Double 7 and you'll get 14  
And  $7 \times 3$  is 21  
But you're not done, no need to wait  
Because  $7 \times 4$  is 28  
And  $7 \times 5$  equals 35

### CHORUS:

Let's have some fun (HAVE SOME FUN)  
And sing along (SING ALONG)  
To 7, 14, 21  
28, and 35, to 42, and 49, to 56 and 63 then 70  
Let's have some fun (HAVE SOME FUN)  
And sing along (SING ALONG)  
To 7, 14, 21  
28, and 35, to 42, and 49, to 56 and 63 then 70

### VERSE:

$7 \times 6$  equals 42  
 $7 \times 7$  is 49  
 $7 \times 8$ 's 56, and you know 63 is next  
When 9 and 7 are so simply multiplied

CHORUS:

Let's have some fun (HAVE SOME FUN)

And sing along (SING ALONG)

To 7, 14, 21

28, and 35, to 42, and 49, to 56 and 63 then 70
