We're Gods and Goddesses of Ancient Greece
Our fame and power ... will never cease
Mount Olympus is our home
But we reign over Earth where the humans roam.

My name is Zeus
Lord of all
Lightning and thunder obey my call
I'm the Lord of the sky and the cold and the rain
Earth is just part of my vast domain

My name is Hera
I'm Zeus's wife
But his many scandals have brought me strife
I'm powerful and gorgeous a mighty queen
But when I get jealous ... I'm crazy mean.

My name is Hades
I'm the God below
I rule over death and bring sorrow and woe
Zeus is my brother and I try to be kind but I'm filled with greed and I change my mind.

My name is Athena
I'm the goddess of sage
I'm very wise and I never age
I like the potter's wheel and I like the loom
I have a wise owl that...lives in my room.

My name is Ares
The God of war
Wherever I go you can hear me roar
I love my dogs and I love my spear
My sister Athena is always near

My name is Poseidon
God of the sea
All of its waters depend on me
I carry a trident I make the surf roll
The waves and the tempers are the things I control

I'm Artemis honey
Hunting at will
My arrows are sharp and they're set to kill
Protecting the young a preside over birth
As women I care for bring life to earth

I'm Apollo, and Artemis is my twin
When I'm holding my bow I always win
I rule over music and poetry too and the things I prophesise always come true.

My name is Aphrodite, Goddess of love
My beauty is famed both below and above
I rose from the throne of the surf of the sea
Hefestus is my man but everybody wants me

My name is Hefestus the god of fire
Although I'm lame I never tire
Armour and weapons are what I got
Cause my bellows are blowing and my forge is hot

I'm Demeter and agriculture is my thing
I brought man grain and I make birds sing
Persephone my daughter can make things sprout
Fertility for us is ... what it's all about

My name is Dionysus the god of wine
I love to drink and I love to dine
I bring lots of joy but I also bring rain ...
And love to watch actors when they take to the stage

My name is Hermes, I move real fast
I guide dead souls when their times are past
I bring notes from the Gods
And my brains are sweet but I'm helped by the man I've got wings on my feet

From Mount Olympus we made our plans
We held man's fate in our powerful hands
Our time is past Ancient Greece is gone
But in stories and songs our fame lives on.
