

Ravensmead Primary School

Topic (Next week) Arctic

Ravensmead Nursery weekly information/homework

26.01.18

Maths - Compares two groups of objects, saying when they have the same number.

Literacy - To hear and say the initial sound 't' and practise making different sounds.

What we have been learning this week.

- The children have really enjoyed investigating how to get the gems out of the ice cubes this week, they had some fantastic ideas.
- This week the children enjoyed our dance lesson about 'Creatures in the Snow', they enjoyed moving and travelling in different ways.
- The role-play area has been very popular this week with the children taking orders on the order forms and making yummy ice-creams for their friends in the ice-cream parlour.
- Children have enjoyed exploring shapes in the environment, including ice patterns. They have drawn and cut out shapes, linked to our Ice topic this week.

Things to do at home

- Can you please bring in an item that begins with 't' and name this item at home.
- The children have enjoyed using shapes for different tasks this week:

For the homework task this week we would like the children to go on a shape hunt at home or around the garden and find different shapes in their environment. Can they talk about the shaped objects they see? Are they round? Are they tall? Do they have corners? How many sides? Are they straight or curved?

Thank you for your continued support - We hope you've enjoyed looking through your child's Learning Book online. If you have any questions, please don't hesitate to ask. We are looking forward to learning all about the Arctic next week.
