Thank you for powering the fightback against dementia!

Dear Ravensmead County Primary School

I want to say a huge thank you for supporting Alzheimer's Research UK and for raising £440.39. Thanks to brilliant supporters like you, we're closer than ever to defeating this devastating condition.

Our vision is a world where people are free from the fear, harm and heartbreak of dementia, but we can only get there with your help.

Thanks to you, we can give hope to people like Sophie Leggett. Sophie lost her mum to early-onset Alzheimer's and, due to a rare genetic form of the disease, there's a chance she could develop it soon too.

She said: "There's a 50/50 chance that I carry the same faulty gene as my mum and auntie. Now I'm in my 40s, I'm approaching the age when they were diagnosed. But I've decided not to take the test to find out. Instead, I'm going to get on and enjoy life and, in doing so, raise as much money as possible to help Alzheimer's Research UK find the preventions and treatments we so desperately need."

One in three of our children will go on to develop dementia, but you have the power to change that.

Thanks to your fundraising, we're one step closer to finding a cure. Without the generosity of people like you and those who supported you, we wouldn't be able to continue our groundbreaking research.

Thank you again for all your support. Together we will defeat dementia.

Yours sincerely,

Lucy Squance
Director of Supporter-Led Fundraising
